

Why Choose Lifttek Screw Jacks?

- NABL lab certified and ARAI approved design
- Proven reliability in heavy-duty applications since last 18 years.
- Perfect balance of performance, safety, and cost-effectiveness
- Engineered for long service life with minimal downtime

Advantages

■ Telescopic Design

- Maximum stroke in minimum closed length (0 to 400mm)
- Compact when retracted → saves valuable space
- Ideal for applications with height restrictions
- Smooth, precise extension under full load upto 15 kN

■ Integrated High-Efficiency Reduction Gearbox

- High mechanical efficiency (up to 40% higher than worm-only designs)
- Lower input torque = smaller, cost-effective motors
- Reduced energy consumption
- Higher speed options without sacrificing load capacity

■ Easy Maintenance & Simple Assembly

- Modular construction – quick part replacement
- Standard tools only – no special equipment needed
- Grease fittings and oil ports easily accessible
- Minimal downtime = maximum productivity

■ Rugged & Durable Design

- Heavy-duty materials for extreme environments
- Corrosion-resistant coatings available
- High safety factors (typically 4:1 or higher)
- Withstands shock loads and harsh conditions

Manufactured and distributed by-
